Resolution to Implement a Public Forum on the SGA Webpage to Address Students' Concerns

Short Title: A resolution to implement a public forum on the SGA webpage to address students' concerns.

Whereas, the Student Government Association's duty is to serve as the voice of all students and to create positive change on campus; and

Whereas, by implementing a public forum on our webpage, we are giving students another opportunity to communicate their concerns quickly to senators and allow them to feel included in our decision making; and

Whereas, by creating this tool, students would have an easy way to reach out to the organization, and staff members could filter through the proposals and use this forum to obtain ideas for new resolutions; and

Whereas, this public forum would act as a small write-in section on the webpage and would be used to answer questions and acquire information about students' needs; and

Whereas, many students are unaware of how to share their concerns with SGA, or are intimidated to reach out directly. Students will have the opportunity to remain anonymous if they choose but will still feel their concerns are being addressed.

BE IT THEREFORE RESOLVED BY THE STUDENT GOVERNMENT ASSOCIATION OF ARKANSAS STATE UNIVERSITY THAT:

The Student Government Association will implement a public forum on the SGA webpage to address students' concerns in order to increase the effectiveness of our organization.
